

HOSTORA

Run the floor.

From booking to last pour.

All-in-one hospitality operations for restaurants, takeaways, event venues, hotels (F&B), and food carts — US, UK & Europe.

US, UK & Europe

K WAZIR LTD · Company 17014542

7 Wellesley Street, Gloucester, England, GL1 4QP

sales@hostorasoft.co.uk

Five businesses. One operations spine.

Hostora is built for how hospitality actually runs — not a generic till app with a new skin.

Restaurants

Takeaways

Event venues

Hotels (F&B / ops)

Food carts

Hotels: F&B and floor ops only (restaurant, room service, banquet kitchens) — not PMS, rooms, or front desk. Food carts: configured to the cart setup.

Everything the floor needs.

One platform for till, kitchen, guests, money, stock, staff, and control.

POS & till

Open tabs, modifiers, split bills, floor-speed payments.

Kitchen display

Live boards by station with notes and status.

Guest QR & seating

Table ordering, seating invites, reservation flows.

Payments & sales reports

Till and online deposits; day / week / month views.

Analytics

Hourly and item-level insight for operators.

Inventory

Stock items, movements, and low-stock alerts.

Staff, HR & attendance

Roles, shifts, and attendance visibility.

Accounting

Purchases and reporting; HMRC-ready framing for UK / EU.

Supervisor monitoring

Live alerts, deletions audit, and floor control.

Deploy where the venue is.

Optional floor kit — including a local Docker server running Hostora and PostgreSQL so every device stays online on your venue network. Quoted with software per venue.

- Local Docker server (Hostora + PostgreSQL on the venue LAN)
- POS tills and tablet POS
- Floor tablets / KDS screens
- Thermal and receipt printers
- Barcode and QR scanners
- Payment terminals

1 · Book & seat

Reservations, deposits, guest QR, and seating invites.

2 · Take the order

Till or tablet POS with modifiers, notes, and open tabs.

3 · Fire the kitchen

Station KDS and thermal tickets routed where they belong.

4 - Close the bill

Payments, splits, reports — day, week, and month clarity.

Built for live service load.

- !' One operational spine instead of a patchwork of apps
- !' Kitchen and print routing that survives busy periods
- !' Supervisor visibility when the floor gets loud
- !' Optional on-venue server for LAN resilience
- !' Markets across the US, UK, and Europe
- !' Custom quotes — packaged verticals plus tailored hotel F&B and carts

Book a Hostora demo.

Per-venue licensing. Multi-site and tailored configurations by agreement. No public price list — we quote to your operation.
