QUOTE PACK

Hostora

Run the floor. From booking to last pour.

All-in-one hospitality operations for restaurants, takeaways, event venues, hotels (F&B), and food carts — US, UK & Europe.

VERTICALS

Restaurants · Takeaways · Event venues · Hotels (F&B / ops) · Food carts

MODULES

POS & till	Open tabs, modifiers, split bills, floor-speed payments.
Kitchen display	Live boards by station with notes and status.
Guest QR & seating	Table ordering, seating invites, reservation flows.
Payments & sales reports	Till and online deposits; day / week / month views.
Analytics	Hourly and item-level insight for operators.
Inventory	Stock items, movements, and low-stock alerts.
Staff, HR & attendance	Roles, shifts, and attendance visibility.
Accounting	Purchases and reporting; HMRC-ready framing for UK / EU.
Supervisor monitoring	Live alerts, deletions audit, and floor control.

HARDWARE (OPTIONAL)

Local Docker server (Hostora + PostgreSQL on the venue LAN) · POS tills and tablet POS · Floor tablets / KDS screens · Thermal and receipt printers · Barcode and QR scanners · Payment terminals

GO-LIVE

- 1 Survey — covers, stations, printers, vertical
- 2 Configure — software ± Docker local server and kit
- 3 Train — floor and kitchen on live workflows
- 4 Live service — one spine under peak load

PRICING

Custom quote per venue. Hotel F&B and food carts tailored per engagement. No public price list — we scope stations, hardware, and go-live with you on the demo.
